-Another year and another decade is about closing upon us. During the last ten years the Union has made rapid strides formed in the paths of progress and higher civilization. We have passed through one of the most destructive wars that has ever impoverished the wealth and strength of any nation. We have incurred an epormous debt, which will be felt for some years to come. Pa. State Senate.

The election of a Democratic State Senator in Philadelphia, makes the probable, if not absolutely certain.—
Indeed, Drake in his valediethry gave State Senate Democratic; something which has not occurred before for a number of years. We take the following from a dispatch to the Pittsburgh Commercial:

PHILADELPHIA, Dec. 20, 1870. The election passed off quietly. Dechet, Democrat, was elected by thirteen hundred and forty-three majority. The vote stood: Lyndall, twelve ousand seven hundred and forty-one; Dechert, fourteen thousand and eightyfour. There is great rejoicing among bors. We will not object to having the Democrats. The same wards gave two or three hundred new subscriptions Leeds, Republican, for Sheriff, in October, seven hundred and fifty majority.

By Associated Press, Philadelphia, December 20.—T election in the First Senatorial distr resulted in a majority of 1,343 for Dechert, the Democratic candidate. In October the Republicans had over 1,000 majo. ity in the same district. The vote was light.

Another Railroad.

It is gratifying to know that the project of a railroad from Titusville to Meadville, and from there to Greenville is still receiving the consideration of the citizens and capitalists of these that we are to-day stronger morally places. The first link would be a very county seat and Titusville. It would dent of the National Council of the be a distance of but twenty-eight miles between these points, and it would be widely known as the most political ornot the disgrace to be borne in a land a saying of twenty-six miles over the where such a blighting evil had been present circutious route by way of Franklin. Foreign nations are striving to intimate our free local region, for such a route will abate the distance to Pitts to intimate our free institutions, and burgh twelve miles. -Mormonism is doomed. The rulings of Judge McKean have already about a railroad to Meadville, and been so effective that Brigham Young thence to Greenville. It seems to us that the gentleman should, if he could, have explained on what ground he justified himself in giving up his scat in the Senate to Blair for one more permanent on the Court of Claims Bench. If the Schurtz and Brown bolt, whereby Blair obtained the nec-bolt, whereby Blair obtained the necessary strength in the Missouri Legislature, was reprehensible, what should be said about the operation that gives Blair the opportunity to use it? OIL INTERESTS DEMAND A RAIL-ROAD.—The oil development is gradually but steadily advancing into Clarion county. There is a large num-bur of excellent wells in Perry and Richland townships, opposite the Park-er oil field. About the mouth of the Clarion, and up that stream the greatest interest now seems to be concentrated .- From another article in this paper it will be seen that another oil field is opened up on Sandy creek, in the northwestern part of our county, and Ashrand county will soon run riel in grease. Providence has so ordered it that new wells will be found as the old ones give out, in order to keep up cheap light. All indications show that all, or a large portion of our county will soon become valuable as oil terriry, and a railroad through the centre will become necessary to convey the oil to market, and make the business profitable.-Clarion Democrat.
